## Soul on Ice

The now-classic memoir that shocked, outraged, and ultimately changed the way America looked at the civil rights movement and the black experience. By turns shocking and lyrical, unblinking and raw, the searingly honest memoirs of Eldridge Cleaver are a testament to his unique place in American history. Cleaver writes in Soul on Ice, "I'm perfectly aware that I'm in prison, that I'm a Negro, that I've been a rapist, and that I have a Higher Uneducation." What Cleaver shows us, on the pages of this now classic autobiography, is how much he was a man.

### The Artisanal Vinegar Maker's Handbook

Vinegar making is a very ancient craft. Mankind first harnessed the creation of vinegar, along with its preservative and medicinal qualities, more than ten thousand years ago. Nowadays, however, most guides to making your own vinegar are limited to allowing wine to ferment on its own, often with le

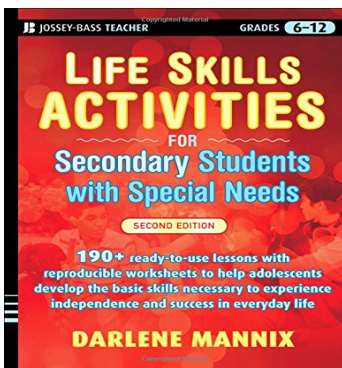

### Clinical Nuclear Medicine

This work has true international scope, being a unique European/American joint venture that focuses on the state of the art in both diagnostic and therapeutic radionuclide methodology. Pertinent clinical applications are emphasized rather than attempting to cover everything included in the several

### Taking the Crown: The Kansas City Royals' Amazing 2015 Season

While the Kansas City Royals may have come out of the blue with their success in 2014, the 2015 edition of the team had high expectations and they met them to the fullest degree in winning the 2015 World Series — the organization's first in three decades. Buoyed by a dominant regular season i

### Life Skills Activities for Secondary Students with Special Needs, 2 edition

Th

**What others say about this ebook:**

**Review 1:**  
great

**Review 2:**  
Very good

**Review 3:**  
The book is old (some 30-40 years, I think), but it still has relevance. It struck me as relevant. This guys certainly seems to have experiences that not a whole lot of authors can match.

If I don't know this area, why am I giving it 5 stars? Precisely because I don't know this area (by area, I mean the topic of movements, repression, unfair treatment of Blacks by Whites, social changes, etc.). I wanted to read something new and this was thought-provoking. I don't know whether all of the big changes that he talks about actually came to fruition; maybe they have, I would not know. But it was thought-provoking and quite interesting to see this guy's point of view. He is quite articulate and puts together some interesting arguments. He gives his point of view on a number of issues, including Richard Wright and James Baldwin. Some of his later essays (this book is a series of essays) are a bit surprising, but again, perhaps true. I think if one grew up in an all-white environment or has little to no interaction with other races, this might be useful to expand one's mind.

**Review 4:**  
This is a poor quality of a photocopied book. Do not purchase as you will not be able to read it on your iPad because the book is copied the wrong way and rotates each time you try to get it right and it's way too small. Again I say do not purchase. I have requested a refund!

**Review 5:**  
this is an out of page order photocopy of the book, impossible to read. should have been vetted by amazon. i want my money back! or a readable version?
