Play Therapy with Sexually Abused Children: A Synergistic Clinical-Developmental Approach

Here is a disguised but tragically accurate account of a 7-year-old boy who was repeatedly victimized by two uncles who penetrated him, required him under threat of violence to act upon them, and forced him to have sexual contact with his sister for their entertainment. Before his ongoing abuse was discovered, the child made several serious suicide attempts. Verbatim accounts of the child's therapy are used to illustrate a new treatment approach for abused children, Synergistic Play Therapy, which follows the work of Haim Ginott and Heinz Werner. Much that is written about play therapy focuses on theoretical notions or intuitive, impressionistic judgment. Seldom does a work make clear the r
