What others say about this ebook:

**Review 1:**

Will use this map on my trip to So. Africa to see where we are going and follow along with it to roads/towns.

**Review 2:**

This is my second favorite map from the series. I reference it often, especially the area around Cape Town. There are A LOT of landmarks and reserves on it. It also shows all the parks and forest cover. I wasn't gonna buy it at first, as I have a map showing all of Africa, but this one is far larger and more detailed. Being that this has always been my favorite country in Africa, I thought it'd be nice to have and it didn't disappoint. Several major landmarks are also shown in Lesotho. Excellent Map. If you're looking for a great map of South Africa, buy this one.

**Review 3:**

Nice maps for hunting Africa.

**Review 4:**

Detailed map that folds up nicely. The map was very helpful in planning our route and locating hotels that are in suburban locations. We have marked our route and now will keep it in the glove compartment, next to the GPS.

**Review 5:**

As Advertised.
