Logic for Lawyers : A Guide to Clear Legal Thinking

To win in court you must master the elements of legal logic--the ultimate tool of persuasion in the courtroom. In *Logic for Lawyers: A Guide to Clear Legal Thinking*, Senior U.S. Circuit Judge Ruggero J. Aldisert tells how to use legal reasoning to persuade judges and juries. A 30-year veteran of the bench, Aldisert helps litigators understand and apply the elements of legal logic. Using these skills, you can argue more persuasively--both in briefs and before the court. And just as critically, you can also expose flaws in adversaries' arguments. The result? A competitive edge in the courtroom. Rather than miring readers in exotic formulas and theories often found in logic texts, Aldisert exp

What others say about this ebook:

Review 1:

this book unlocks the labyrinthine world of legal reasoning. an effective tool to clear oral and written advocacy.

Review 2:

BOOK IS IN EXCELLENT CONDITION!!!

Review 3:

Great condition!

Review 4:

The title of this book looks very promising to people who are interested in common law or lawschool students, and many of the chapters, such as the discussion of several inductive and deductive reasoning with legal precedents are pretty solid indeed. The reader will gain an in-depth understanding in the theoretical framework of legal reasoning, a level well above a mediocre first-year law student.

DO NOT expect, however, that you will have A+ easily in most law classes after reading this book. Success in lawschool or any other law-related classes in gradschool/college depends on many things. A sharp legal mind alone can be frustrated by laziness. Besides, although the knowledge in this book looks like a long list of recipes that will help you ace whatever classes, it only provides you a minimum amount of prerequisites that you'd better consider as a "must have", rather than a "luxurious decor"

Review 5:

I have used the principles in this book in every oral argument I've made since I got more than halfway through. It really opened my eyes to a whole new way of preparing arguments and better yet, attacking my adversaries' arguments.
