What others say about this ebook:

**Review 1:**

Chopra captivated me since the first pages. I got it for my niece but after my own experience with the book, I decided to give it to her Dad first. There is time when our kids will get out of the shell and be exposed to the world. Chopra helps us to approach our kids to answer questions before they ask someone else. Moreover, that is a tool to review our own questions even though I didn't agree with some of his answers. I think that Chopra gave me answers too.
