Yet another book/series that had me going through the motions!

Light in the Shadows is the second novel in the series, and it did not disappoint! There was one part in the beginning where I was getting a little annoyed with Maggie and Clay. It seemed like they just could not live without one another.

But as quickly as that depression period happened, it ended. I was really happy about the fact that I got to read more about Clay and everything that he had/has/ and continues to deal with. The writing of this novel was definitely like the last. I love the style of it, as well as the beauty of this relationship regardless of how toxic they both were to each other.

There was a quote that Clay says, and it completely sums up the entire series, as well as gutted me from the inside. SO much power written in a paragraph...

"This time, I didn't cut. I didn't think of some way to end things so I'd never have to feel this way again. Instead, I clung to my girlfriend. The person who had always been my light in the shadows and who continued to love me even at my worst. Who reminded me that everyone deserved love, even me"

Overall I loved this series. It had everything you could imagine and more rolled into a book that I feel should have been more than almost 400 pages. The love, the hate, the raw undying emotion that still had flames even when someone threw water on it before it had the chance to fully ignite.

Review 2:

While not as heavy as Find You in the Dark this book was still was a tough one. There were several times where I had tears in my eyes just from the magnitude of the situation. I wanted the best for Clay and Maggie, both separately and together.

I liked how everything was handled though. Nothing was rushed, Clay wasn't magically cured overnight. It was a process and it felt real. Such a heavy issue for teenagers that is of course very real in our everyday lives.

Overall this was an intense read that was in no way sugarcoated. This was heartbreaking and inspiring all at once.

Review 3:

This is book two in the series and should be read in order.

Clay is gone and Maggie is left depressed and broken-hearted. Neither know how to deal without the other in their lives, but they must. Clay needs to focus on getting better. Maggie needs to push through and do well in high school. Their worlds just aren't the same without one another, though. While Clay is fighting to get to a place where he can feel good again, Maggie sinks further into a place that leaves her friends and family concerned. It was gut-wrenching to read how both were suffering. I felt for both characters.

An unexpected tragedy brings them face-to-face. What happens when they see each other again after months apart? The feelings both had still exist for each other, but too much has happened. Even though the pull is still there, they don't know if it's the smart thing to jump back into a relationship. If they do, they both need to go in with clear heads and open eyes. Love is a powerful force. Powerful enough to pull two souls from the dark.

This book was amazing! The pain, the loss, the reconnection, it all was perfect. You are only along for the ride with Maggie and Clay, and what a wild ride it is. I smiled and cried as I read. This book truly pulls you in and makes you root for them to be together. With all that they have been through, they deserve to be happy. Another fantastic read from A. Meredith Walters!

Review 4:

Loved it. Perfect end to a complicated story!

Review 5:

Thank you Meredith Walters ... for giving this story and these character no easy answers, no quick fixes ... instead they've been given hardships, depth and substance.

Along with it's predecessor, this book took me on an incredible journey. It was emotionally exhausting. There were points of total darkness. But, just as the title would elude ... it was the light in the shadows that made the whole thing so very, very worthwhile.

I don't think I'll ever forget this gorgeous story ... Definitely one of the best I've ever read. ?
