What others say about this ebook:

**Review 1:**

Superb must read for aging men

**Review 2:**

Every man should own this book. It's helped me understand my midlife.

**Review 3:**

more Star Wars

**Review 4:**

This book places a great deal of emphasis on spirituality and/or mysticism. I found it rather unscientific and while it did offer a few insights, overall it was not worth the time spent reading it.

**Review 5:**

John Robinson so accurately describes and maps out the life of men, at least as I have experienced it over the past 40+ years, that it would be frightening if the release and freedom this perspective brings wasn't so exciting. As I read this book many, many experiences in my life started to make so much sense and fall into place. If you have thought that there is something missing or there should be something more to life, then read this book. If you are at a stage where you want to make some changes in your life then the insight this book brings provides you with a wonderful perspective from which to make them. More to the point if you that mid-life age where changes may be happening whether you choose it or not go read!
