## The Planet Venus (The Planetary Exploration Series)

Shrouded by the thick clouds of hot, dense atmosphere, the planet Venus - Earth's closest neighbour in space - remained mysterious until recent decades. Today, with data from contemporary observations and from Russian and American spacecraft, Venus has moved into sharper focus. This comprehensive book provides an up-to-date and detailed analysis of the nature of Venus. The authors, experts in planetary science from Russia and the United States, examine all the principal aspects of Venus, with particular attention paid to the planet's formation, the development of a runaway greenhouse effect, and Venus' evolution into a planet completely different from others in our solar system. Integrating

## The Lawyer's Guide to Succession Planning: A Project Management Approach for Successful Law Firm Transitions and Exits

Sixty-five percent of law firms' equity partners in the U.S. are in their late 50s or early 60s. Over the next ten years, there will be many partners in firms of all sizes transitioning and exiting their practices. Many solo and sole owner attorneys as well as larger law firms are in "reactionary m

## The Portal

Harry Middleton is born in an America staggered by a century of decline, a time of medical and technological marvels beyond the reach of most people in a shattered economy. Pessimism and despair have replaced optimism and hope. A desperate government has bet the future on space, but the lunar and
