Meditation on Emptiness

In this major work, Jeffrey Hopkins, one of the world's foremost scholar-practitioners of Tibetan Buddhism, offers a clear exposition of the Prasangika-Madhyamaka view of emptiness as presented in the Ge-luk-ba tradition of Tibetan Buddhism. In bringing this remarkable and complex philosophy to life, he describes the meditational practices by which emptiness can be realized and shows throughout that, far from being merely abstract, these teachings can be vivid and utterly practical. Presented in six parts, this book is indispensable for those wishing to delve deeply into Buddhist thought.

What others say about this ebook:

Review 1:

Presents many contemplations on emptiness and advice on how to meditate, culminating in the debate that sparked the division in the Madhyamaka. Also includes a translation of the text "Emptiness in the Prasangika System" by Jam-yang-shay-pa.

Very thorough and academic. Also uses lots of precise terminology. Good choice for those looking to gain a more thorough understanding.

Review 2:

I have many books by J. Hopkins, excellent work. My gripe is with the publisher who for some reason wishes to limit the sale of their book by not permitting Text to Speech. If i had been paying attention, i wouldn't have bought this book.

Review 3:

Meditation on emptiness, besides being a wonderful and perhaps singularly expressed text on this wonderful and most useful study of the center of Madyamika study, was sent in a timely fashion and in great condition.

Review 4:

An excellent resource for readers who are interested in learning the nuts and bolts of Buddhist thought from the ground up particularly regarding the Prasangika Madhyamika view of emptiness. I refer to it all the time. It's tersely written and vast in scope. I use it primarily as a reference. Although it was first published in 1983, it is still unique despite the growing number of publications on the subject of emptiness. Invaluable!

Review 5:

A great book for those interested in deeply pursuing an understanding of emptiness. Provides the intellectual framework necessary for the kinds of analytic meditations on emptiness so often recommended by HH the Dalai Lama. Not the book for someone with just a passing interest in Buddhist philosophy. But, an excellent resource for those wishing to pursue further study and meditation on emptiness.
