A Light Within (Three Keys) (Volume 2)

Loyalty beyond life itself... Desire that whispers to defy an oath... At risk is all they've ever shared and a future they hope to keep. Having slipped from a demon lord's clutches, Sara Forrester is plunged into the only role in life she was ever meant to fulfill; the quest to obtain three ancient keys hidden by the powerful entity known as the Soltari. Sara and her team must race to Scotland and find the sacred Druid priests before the evil that seeks to end the quest traces her energy trail and puts an end to mankind. But when she arrives, a powerful force lures her to a break in time and space, diverting her intended path. Staying alive to recover the keys that will sav

What others say about this ebook:

Review 1:

A Light Within is a so-so book. It's not bad, but it's not the best fantasy thriller I've read. I found several plot points to be predictable and there were a few twists that I did not see coming. The writing is simple, uncomplicated and not hard to follow. I did not find myself immersed and desperately wondering what was going to happen next. It's just interesting enough to keep reading, but not interesting enough to read in one night.

If you did not read the first book, you will be lost. Be sure to go back and read the first one so you have an idea of what is going on. I love druids and magic stories, so I was hoping this would be another intense book. Even though it isn't enthralling, it's not a bad book. It's good for a book to read on the bus or train, or if you're waiting in the doctor's office and need to pass the time.

Review 2:

A Light Within by Dana Alexander continues the story of Sara as she races to find the three keys that can stop the invasion of evil that is taking place on Earth. The demon lord Tarsamon is trying to decimate the Earth's population. He has unleashed powerful hurricanes and sent them hurtling toward the United States' east coast with hope of slaughtering millions. Sara's team so far has been able to hold them back, but the evil is hot on their trail. Arriving in Scotland, Sara knows she is close to finding the first key. But it seems the closer she gets the harder things become. Voices of the dead and from other worlds speak to her constantly, ever distracting her from the mission at hand. To make matters even worse, she has fallen in love with Kevin: a human at her side in her quest. It is something she promised she would never do, and something she cannot help. She has no memory of Kevin, but if she found out the truth, it would destroy them and the whole of the earth with them.

A Light Within picks up where Beyond a Darkened Sky left off. At first I did not realize I was reading a continuation of the same story, but as Sara's powers were described and she motioned her sword, it all started coming back to me. The writing in this story is good but it still suffered from the same drawbacks as its predecessor: the story moves along slowly and could use a little trimmer to help pick up the pace.

Review 3:

Sara and Kevin are back in book 2, A Light Within, a follow-up to Beyond a Darkened Sky. Sara is once again saving the wakened world from Tarasom and an evil plan to destroy humanity. She accesses this other world in her sleep, and has a long past that she can't remember. Along with Kevin, three keys are to be found in order to break Tarasom.

I am a huge fan of sci-fi. I bought the first book after a recommendation from a friend and found myself instantly drawn to the story. Fair to say, reading Beyond a Darkened Sky will make a Light Within much easier to grasp. I am anxious to read the final book. 5 stars!

Review 4:

Sara Forrester has a long past she unfortunately can't remember. She was the leader of the Alliance. She feels a connection to Kevin. Unbeknownst to her, Kevin is part of her past, a warrior. As the future of humanity hangs in the balance, Kevin and Sara are on the hunt for 3 keys that will keep a dark world from drawing from human's energy for evil. Fooled as they closed in on the first key, Sara is taken and Kevin must save her.

A Light Within is the second book in the Three Keys book series. I read the first one as well and became fascinated with the story. Lots of suspense make this sci-fi book an excellent read. Highly recommend!

Review 5:

This is the second book of the Three Keys Series, so it's best to read Darkening Skies first. I enjoyed this one more than the first one, probably because I knew the characters better and the plot was now moving along. Sara goes to another world when she sleeps--a very important world, one where she has the ability to save the waking world, and where she's quite powerful, though she can't remember that small fact. She has her love, Kevin, who she met in the first novel, and he can read her mind. Well, actually she can read his mind too, which kind of slows down a romance novel since it's the misunderstandings that push that genre along.

There is a lot of action, with elves, and the evil Tarasom who's out to destroy the waking world(our world) making it safe for his kind of evilness. Sara has been told by the Alliance(the good guys, sort of)that her romance with Kevin can't go on because she'll be distracted from saving the world. That certainly puts a kink in things, which adds tension to the novel.

Sara gets captured by the bad guys and has to find a way to escape which she does with the help of Kevin(I really found the whole idea of having to go to sleep to get to the other world, intriguing. What if you couldn't get to sleep? And if you die in your sleep, do you just not wake up?) Dana Alexander has written a very imaginative novel that really holds the reader's interest. I'm anxious to see how it all wraps in in the last of the three novels.
